Every woman should realize that her health is like a bank account. At the outset she has so much deposited to her credit in the bank of health. If she draws out more than she puts in she will soon over-draw her account. An over-drawn account in the bank of health means one of two things, a life of hopeless suffering or an early death.

The woman who neglects her health in a womanly way is making big drafts on her

early death.

The woman who neglects her health in a womanly way is making big drafts on her account with the bank of health and will soon be a physical bankrupt. Disorders of this description wreck a woman's general lealth quicker than anything else in the world. They soon transform a healthy, happy, amiable woman into a weak, sickly, fretful and despendent invalid. They utterly unfit a woman for wifehood or motherhood. For all disorders of this nature Dr. Pierce's Favorite Prescription is the best of all medicines. It acts directly on the delicate and important organs concerned in maternity, giving them health, strength, vigor and elasticity. It relieves pain, allays infammation, checks debilitating drains, and quickly subdues all other symptoms. It at once stops the dragging pains and sinking spells, the nervousness, the digestive disturbances and other complications that arise from the same cause. Taken during the months of expectant maternity, it banishes the usual discomforts and makes baby's advent easy and almost painless. It insures the new-comer's health and a plentiful supply of nourishment. Thousands of women have testified to its marvelous merits. An honest dealer will not suggest an inferior substitute for the sake of extra profit. bridge, is the guest for a few days of

Senator Hanna Almost Run Down by a Cable Car on His Own Line.

Cleveland, O., June 8 .- A street car accident that would have excited national attention came within an ace of happening in Cleveland this evening Senator M. A. Hanna was almost run street car for the West End to reach h.s Lake Avenue home at the time. He had just left the Perry-Payne building and was walking along Superior stree Water street, where the cable tracks turn from Superior street to Water street, he espled a Detroit street car standing at the viaduct just across the cabl line. The car was taking on a passenger and would soon start west again. Senator Hanna decided to try to catch the car. He hastened to cross the cable tracks, but failed to notice a cable train coming around the curve for the north-bound run on Water treet. The switchman shouted, the gripman rang his bell violently. It is hard to con rol a grip car once strated around a curve. The grip car barely missed striking Hanna. He escaped however; but street car employes who saw the occurence said the escape seemed miraculous. All expected to see Hanna go under the wheels.
